

## **Cover Letter**

Dear Hiring Manager,

I am writing to express my interest in the Head of Information Technology position at the Garvan Institute of Medical Research, as advertised. With over 13 years of experience in IT infrastructure management, cybersecurity, and team leadership, I am confident in my ability to contribute effectively to your organization's strategic IT goals and ensure the continued excellence of Garvan's technological environment.

In my current role at Banpu Energy Australia, I have successfully led significant IT initiatives, including the modernization of the company's SharePoint environment, automating M365 systems to enhance cybersecurity maturity, and restructuring our network with Meraki SDN. My hands-on experience extends to overseeing and optimizing OT/IT infrastructure in solar farms, where I have led efforts to improve cybersecurity across critical systems. These projects have not only strengthened the technical robustness of our operations but also aligned IT strategies with business objectives, ensuring sustained organizational resilience.

At Anspec, I managed diverse IT operations, from vendor management to cybersecurity frameworks, consistently delivering projects on time and within budget. My leadership in these roles has always been underpinned by a commitment to building strong, service-focused teams and fostering clear communication with stakeholders, ensuring that IT initiatives are understood and supported at all levels.

The opportunity to contribute to Garvan's mission of making life-changing impacts through world-class research resonates deeply with me. I am particularly inspired by your commitment to diversity, equity, and inclusion, values that I have also championed throughout my career.

I am excited about the possibility of leading your IT team in driving innovation, enhancing security, and delivering technology strategies that support Garvan's critical research endeavors. I am confident that my experience, technical expertise, and passion for IT leadership will make a meaningful contribution to your team.

Thank you for considering my application. I look forward to the opportunity to discuss how I can help Garvan achieve its IT and research goals.

Sincerely,  
Tim Huang

**Resume**

---

**SUMMARY**

A dedicated IT professional with over 13 years of experience in infrastructure management, cybersecurity, and team leadership, notably with Banpu Energy Australia, Anspec, and Ideagen. Proficient in vendor management, mobile device management, and cloud technologies like Azure and Microsoft 365. I am now aiming to continue my career as an IT Manager to ensure a secure and robust IT environment while contributing to overall IT strategy and architectural framework. Equipped with a suite of certifications including AWS, CCNA, MCSE, and CompTIA, I am able to support any organisation's mission through the provision of innovative IT solutions.

---

**WORK EXPERIENCE**

**Banpu Energy Australia**

*Oct 2023 – Current*

*IT Manager*

- **SharePoint Modernization:**
  - Spearheaded the modernization and restructuring of the entire company's SharePoint environment, enhancing both effectiveness and security to the next level.
- **M365 System Automation:**
  - Led the automation of M365 systems, significantly improving the Essential Eight maturity level and reinforcing the organization's cybersecurity posture.
- **Network Restructuring:**
  - Restructured and transformed the company network utilizing Meraki SDN, resulting in a more efficient and scalable network infrastructure.
- **Onboarding Process Automation:**
  - Led and built a fully automated onboarding process, reducing individual setup time from 2 hours to a couple of minutes, greatly enhancing efficiency.
- **Solar Farm Infrastructure Oversight:**

- Oversaw and monitored all OT/IT infrastructure across solar farms, leading initiatives to improve cybersecurity and ensure robust protection against potential threats.
  - **Cloud Infrastructure Cost Saving:**
    - Achieved a 50% cost reduction in AWS environment and Saving 50% in Azure environment by optimizing cloud infrastructure, significantly lowering operational expenses while maintaining system performance.
  - **International IT Team Management:**
    - Successfully worked with and managed an international IT team, coordinating across multiple time zones to ensure seamless project execution and consistent IT service delivery globally.
    -
- 

## **Anspec**

*Sep 2022 – Sep 2023*

*IT Operations Manager*

- **Hands-on Technical IT Management:**
  - Excelled as a hands-on technical IT manager, overseeing a diverse range of IT operations ensuring seamless functionality and security across all system layers.
- **Vendor Engagement & Management:**
  - Established and nurtured successful relations with key vendors, ensuring alignment with business requirements and contractual terms.
- **Project Delivery:**
  - Spearheaded multiple IT projects involving system upgrades, network upgrades, implementations, and integrations, working closely with business experts and vendor teams.
- **Cybersecurity Management:**
  - Developed and maintained a comprehensive cybersecurity framework, securing cloud, endpoint, and infrastructure while training staff, effectively reducing security incidents.
- **Business Continuity & Disaster Recovery:**

- Formulated and tested robust business continuity and disaster recovery plans for critical systems.
  - **IT Network/System Performance:**
    - Monitored and optimized IT network and system performance ensuring a fit-for-purpose infrastructure supporting diverse business needs.
  - **Domain Management:**
    - Administered domain management tasks, including website maintenance, SharePoint/OneDrive administration, and email system management.
  - **IT Strategy & Architectural Framework Development:**
    - Actively contributed to the development and refinement of the company's IT strategy and architectural framework.
  - **Technical Skills Application:**
    - Utilized technical competencies in Azure and Microsoft365 for various projects, improving system reliability and user satisfaction.
  - **Communication & Stakeholder Engagement:**
    - Cultivated strong relationships with internal stakeholders, ensuring IT initiatives are well-understood and supported across the organization.
- 

## **Ideagen - Complispace**

*Jan 2018 – Sep 2022*

*IT Manager*

- **Hands-on Technical IT Management:**
  - Excelled as a hands-on technical IT manager, overseeing a diverse range of IT operations ensuring seamless functionality and security across all system layers.
- **Vendor and Contract Management:**
  - Established robust relationships with vendors and excelled in contract negotiations, ensuring value-driven service delivery and aligning vendor operations with organizational goals.
- **Execution of Business-focused IT Projects:**

- Successfully led and executed several business-centric IT projects, enhancing operational efficiency, system integration, and digital transformation.
  - **Stakeholder Engagement:**
    - Developed and maintained strong relations with stakeholders across various levels, ensuring clear communication and alignment between IT and business objectives.
  - **Cybersecurity Enhancement:**
    - Spearheaded cybersecurity initiatives that fortified the organization's defense mechanisms against potential threats, ensuring compliance with industry standards and best practices.
